

Advanced Agro Pulp and Paper Mill

Prachinburi, Thailand, 1994 - 1995

Client

Advance Agro Pcl.

Designed by

Seatec for Structural & Civil Design

Constructed by

Christiani & Nielsen (Thai) Pcl.

Technical Data

Construction of a new green field integrated pulp and paper mill on an area of about 650 Rais located in 304 Industrial Park, Srimahaphot.

The construction comprises 60,000m² Paper Mill, 26,000m² wood chip mill yard, 8,000m² Pulp Mill, 3,700m² boiler Power Plant, Chemical Plant, Pipe Bridge, Purac Process Water and Effluent treatment plant, 11,000m² Maintenance Workshop and Administration Office with a total project floor area of 131,900 sq.m. (including approximately 6,000 tonnes of structural steel buildings, roofs and framing).

Introduction

Advance Ago Pcl. Also known as THA-TOOM MILL is the first biggest green field integrated pulp and paper mill in Southeast Asia. THA-TOOM MILL is a complex of modern and proven technology from well known pulp and paper industry producers such including Scandinavia, Europe, North-America and Japan. Processes include Chlorine-Free Bleaching; efficient pulp cooking uses less chemicals and energy; efficient chemical recovery systems with closed anti-leak facilities in production areas.

Date of Commencement : June 1994

Date of Completion : November 1995
