CHRISTIANI & NIELSEN

HISTORY

CHRISTIANI & NIELSEN

Dr. Rudolf Christiani

Captain Aage Nielsen

1904: Founded in Denmark

Christiani & Nielsen was founded in Denmark by Dr. Rudolf Christiani, a young civil engineer, and Captain Aage Nielsen, an officer in the Royal Danish Navy. The initial aim of the company was to use its technical and design expertise to develop the use of reinforced concrete, particularly for bridges and marine works.

1904 - 1938: Global expansion

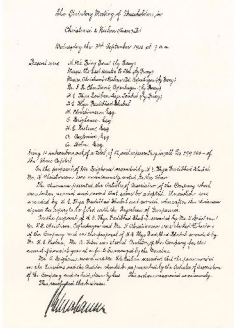

Branches were established in Germany (1908), United Kingdom (1913), South America (1919), Thailand (1930) and South Africa (1938). Many more countries were to follow.

Research Station Project at Antarctica

1930: Thailand

Christiani & Nielsen (Siam) Ltd. was formed by principal shareholders: H.M's Privy Purse (now the Crown Property Bureau), East Asiatic Company and Christiani & Nielsen, Denmark. The name changed to Christiani & Nielsen (Thai) Ltd. in 1949.

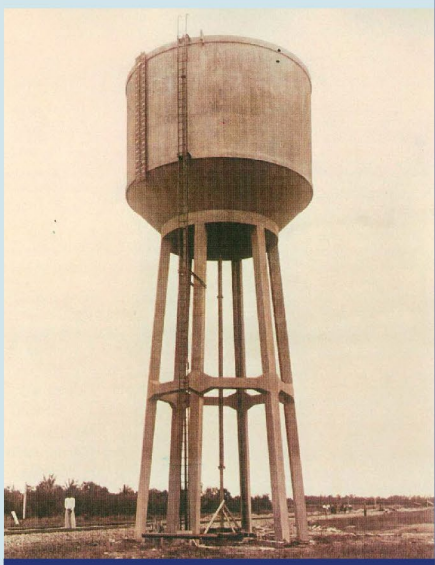

The founding of Christiani & Nielsen (Siam) Limited

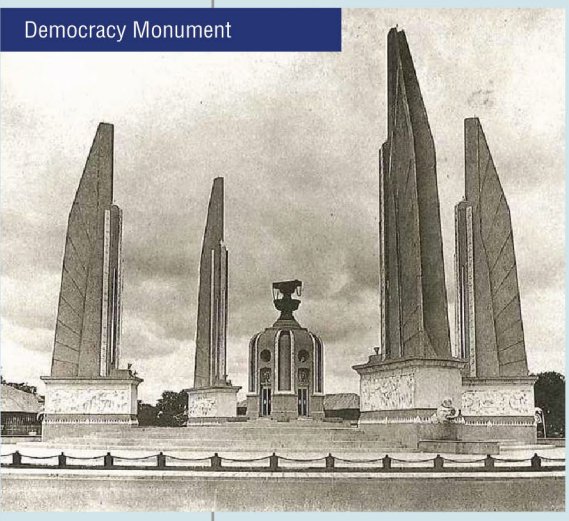

1940 - 1958: Landmarks

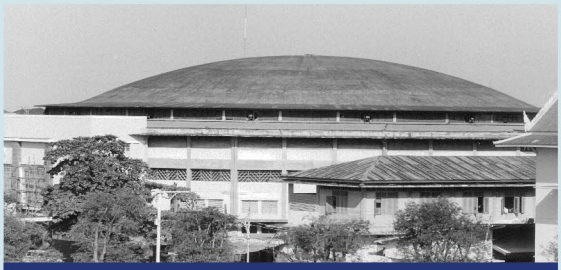

Many projects of the early years became landmarks in development of Thailand, such as Tripetch Road (1931), first concrete road in Bangkok, Democracy Monument (1940), Klong Toey Port (1941),and a 10-storey extension to the Oriental Hotel (1958), the first concrete high-rise building in Thailand

Christiani & Nielsen Head Office

1992: Public Company

Christiani & Nielsen (Thai) Ltd. became the first construction company listed on the Stock Exchange of Thailand. In 1992, the company was renamed Christiani & Nielsen (Thai) Public Company Limited, and completed a reverse takeover of its publicly listed Danish parent company, the first such transaction in Thai history.

2011: Joined GP Group

The Crown Property Bureau sold its shares to Globex Corporation, part of the GP Group with a long history in Thailand dating back to 1918. Globex became the major shareholder of the Company

2019: CNES

A subsidiary company, Christiani & Nielsen Energy Solutions Limited (CNES), was formed to participate in the growing solar, wind and other alternate energy business.

COMPANY IN BRIEF

Christiani & Nielsen provides a comprehensive range of construction services, including design and construction of building and civil engineering works, design, in-house fabrication and erection of steel structures, and electrical and mechanical engineering services. The aim is to deliver projects to the complete satisfaction of the customer.

Mission and Vision Statement

With a century of operations, we have a unique place in Thailand's development, and will firmly continue to build a strong foundation for its future.

We aim to be the most highly regarded construction company in Thailand and ASEAN,by delivering excellence to our clientd, honoring our commitments and nurturing each one of our people

CNES

CNES Renewable Energy Contributions:

- Operating and developing 25 MWp of PV Solar Energy
- Producing 36,250,000 kWh of sustainable energy
- Offsetting 25,630 Metric Tons of CO2
- Removing the equivalent of 5,537 cars from the road
- Preventing 28,240,964 lbs. of coal combustion
- Preserving 173 acres of forests

NEW BUSINESS (CNES)

In recognition of the huge potential in the alternate energy space in Thailand and in the wider Indo-China region, the Company entered into the Alternate Energy Sector in the Year 2019 by setting up a subsidiary "Christiani & Nielsen Energy Solutions Co., Ltd.,(CNES)", which, by the end of Year 2020 has made a significant impact in the domestic Solar projects space by acquiring in excess of 25MWp volume of contracts in the market.

CNES, under the banner of its wholly owned Subsidiary CNESD1 has now entered the sector of developing renewable energy Assets to assure uninterrupted revenues in the long term, and has successfully acquired a large and reputed Group as its main customer, in the sector. With an exponential growth projected in the renewable energy sector and CNES' possible foray into related sectors, the Company views that this growth initiated in 2019 will go a long way in not only ensuring the Company's long term growth, but to also provide stability to the Company's construction business which is volatile, fiercely competitive and highly dependent on the growth of the Thai economy."
